

ACCOFLEX

IMPERIAL

2005 SERIES

SEMI-FLEXIBLE VINYL TILE

PRODUCT DESCRIPTION

Accoflex Imperial is manufactured to AS 1530.3:1989 from natural limestone bound with tough resilient polymers. Accoflex Imperial is a vinyl composition tile with through-grain construction and factory applied acrylic coating. Accoflex Imperial combines performance with a Colour Dimensions system to allow a colour co-ordinated interior.

SPECIFICATION

Accoflex Imperial is a floor tile manufactured from ground limestone, bound with polymers, plasticisers and stabilisers and coloured by pigments.

Conforms to the requirements of AS 1530.3:1989 and ISO 9002 standards.

Tested in accordance with AS / NZ 4586:1999 (Appendix D) R9.

FEATURES AND BENEFITS

Through-grain chip construction: retains consistent appearance even in areas of differential wear.

Heavy-duty formulation: highly resistant to indentation, gouging and other physical damage and wear, including chipping.

High rolling load integrity: ideal for wheeled traffic such as trolleys.

Easy installation: economical options compared to other flooring types.

Low emissions of Volatile Organic Compounds (VOC's): inhibit 'sick building syndrome' (SBS).

"Fast Start" factory applied acrylic coating that helps protect the material against soiling during

Thickness	Dimensions	Carton Content	Weight
1.6mm	300 X 300mm	4.50m ² (50 tiles)	

Limitations: *Not recommended for:*

Sloped / ramped areas or other areas requiring a slip retardant surface.

Electronic assembly areas or other areas requiring resistance to electro-static build-up.

Warning: these products are liable to be slippery when wet
